

Kelowna International Airport

Energy Policy

Date: December 07, 2018

In 2018, the City of Kelowna's adopted a "*Corporate Energy and GHG Emissions Plan.*" YLV's Strategic Plan supports the goals and objectives of the plan by:

1. Striving to reduce GHG emissions in contribution to the City of Kelowna corporate goal of a 12% GHG reduction below 2007 levels by 2022.
2. Adopting the requirement of energy modelling and airtightness testing for the construction of new facilities.

YLV has identified it's environmental goals in the YLV Strategic Plan to "Operate and Maintain Safe and Secure Best in Class Facilities and Services". YLV is committed to being a leader and supporting its staff, tenants, corporate partners, and the local community in energy efficiency and sustainable best practices, to preserve the environment and encourage energy reduction across the community.

A handwritten signature in black ink, consisting of several fluid, overlapping strokes that form the name 'S. Samaddar'.
